### SUMMARY

I am a newly trained Quality Assurance Tester, proficient in all sorts of manual testing techniques, working in Jira and other test related software, like Postman or Git.

### PERSONAL PROJECTS

#### Vending Machine Application

I simulated a vending machine in C and made test cases on it in Jira.

- Worked on developing the code and fixing the bugs.
- Tested the application.
- Wrote the test cases and bug reports for it.

#### Personal Website Project

I coded my own personal website, and tested it.

- Coded the site from scratch.
- Tested the site.
- Made Jira tickets detailing the testing and the bugs found.

### RELEVANT SKILLS
